Subject: RE: MKC TSCA Call

Hello Katherine/Mark,

I wanted to circle back with you to see if we can arrange a discussion with you in the next week or two. We are looking to have a technical discussion only and I can draft an agenda to share with you prior. EPA's counsel would not be participating. If MKC's wishes their counsel's participation, please have them discuss with ours.

We are confident we can move forward to resolve any remaining concerns on technical matters and are looking forward to working with you.

Thanks,
 Peter

Peter,

Thanks for the email. I'm copying Mark Sheppard of Madison-Kipp Corporation who is the new environmental contact for MKC.

I checked with folks today and holiday schedules between our team have us in and out of the office through the new year. Can you suggest a few days that you and Michael, and anyone else, would be available beginning the week of January 8?

Thanks, and happy holidays,
 Katherine

Hello Katherine,

I'm reaching out to you as I've seen your name on recent documentation related to PCB work at the MKC site. I am the Regional PCB Coordinator for USEPA Region 5 and would like to ask if we could arrange a conference call on Monday with yourself and the appropriate contacts at MKC. We wish to introduce ourselves as a new PCB remedial project team at Region 5 and discuss a letter MKC will be receiving shortly that was sent in follow up to the November 2017 settlement with Wisconsin.

Please advise if you and representatives of MKC would be available on 12/18 for a call.

Thank you,

Peter Ramanauskas
